2018 started Medication Assisted Treatment with physicians, the gold standard for treating opioid use disorder (**38 MAT clients; 23 (61% OUD)**)

## Medication Assisted Treatment (MAT)

Here at Fairfield Behavioral Health Services, we believe that there are many roads to recovery that requires support and involvement of others to improve and sustain a person's drug free and healthy lifestyle. All treatment options should be considered when developing a person's unique plan of care including proven medications for addiction treatment to aid **OPIOID, ALCOHOL and TOBACCO Use Disorders.**

**MAT** is "the use of medications, in combination with counseling and behavioral therapies, to provide a whole-patient approach to the treatment of substance use disorders." --SAMHSA

# What's Next?

- Negotiating services at the local Detention Center
- Continue working with first responders to increase referrals to FBHS of persons receiving Narcan reversals
- Position ourselves to help neighboring counties with MAT services due to shortage of MAT physicians
- Increase referrals from physician offices, court systems, etc.
- Continue OEND training
