 **Mission:** *Dedicated to providing quality, accessible and affordable alcohol, tobacco and other drug intervention, treatment, prevention and education services to the residents of Fairfield County.*

Fairfield Behavioral Health Services offers a range of services to help support clients and families which enhances treatment and recovery.

- **Rehabilitative Psychosocial Services** is a face-to-face skill building service designed to enhance, restore and/or strengthen basic living, socialization, interpersonal and empowerment skills.
- **Parenting** Clients participate in weekly sessions to address feelings, self-esteem, stress, confrontation, problem solving, boundaries, schedules, safety and protecting children.
- **Anger Management** Clients develop an awareness of angry thoughts, feelings, actions, source of anger as well as learn effective communication and conflict resolution skills.
- **Grief and Loss** Clients learn the stages of grief and the process of healing.
- **Decision Making** Clients learn how to manage behavior, handle and resolve problems.
- **Stress Management** Clients develop an awareness of physical, emotional symptoms and learn various ways to cope and handle stress.
- **Family Counseling** Family members are encouraged and learn how to care for themselves while supporting a loved one in recovery. Families learn about addiction, family roles and how to strengthen communication and improve relationships.
- **Opioid Overdose Prevention** Services are provided for anyone wanting help with opioid use and addiction. Clients (or their caregivers) at risk for overdose are provided access to Narcan to reverse an overdose as well as training for administering the Narcan. 
- **Inpatient Referrals** In state and out-of-state referrals can be made and coordinated with facilities with more intensive, structured and suitable services that require frequent monitoring of a person's recovery.
- **Involuntary Commitment** is a last resort service that may be provided when a person is unwilling to access help for themselves when their excessive substance use poses an immediate threat for the safety of themselves and others. This is a coordinated service that requires involvement of the Probate Judge, a physician and law enforcement after we complete the necessary documents to issue a pick-up order.
